OCTOBER 2010 / £5.50

WINNER BEST BESPOKE COMMISSION - DECIBEL DESIGNS

Sarah Wodehouse at Decibel Designs

Textile designer Ptolemy Mann and Kensington Home Technology

This colourful blind was designed to conceal a television screen, and was chosen by the judges for its intelligently sympathetic design in keeping with the layout of the room and the Arts and Crafts style of the property's interior. To this aim an original artwork was commissioned for the piece, with the client selecting textile designer Ptolemy Mann to design the blind's surface. Drawing on the colour scheme set by the room's existing artwork, Mann hand-dyed the fibres for the design, using an ikat technique to weave the fabric on a pink warp. Working with Kensington Home Technology, the blind was installed with the television into a recess in the chimney breast. www.decibeldesigns.co.uk *idlx*
